

CPI COMPETITION PROGRAM

Competitive
Programming Initiative

ABOUT THE PROGRAM

The CPI Competition program is a partnership between the Competitive Programming Initiative (<https://joincpi.org/>), and your competition, *as well as* a coalition of high school programming contests.

The purpose of this program is to help organizers create long-term competitive programming competitions. Organizing a new contest isn't easy, and neither is keeping a contest running for many years. We hope to provide resources and support to increase participation and the longevity of the competitive programming community.

WHAT WE CAN PROVIDE

Benefits	In More Detail
Community help & resources	Get access to resources such as a shared sponsors list and ask for advice in a dedicated forum with experienced contest organizers
Community manpower	Organizers, problem testers, and problem writers from CPI and other contests in the CPI Competition Program
Priority Funding	Priority for sponsorship from CPI
Advertising	Advertising on CPI's contest newsletter and Discord, as well as community advertising in other contests in the CPI Competition program

NEXT STEPS

We need from you...

- List your competition as a part of the CPI Competition program visibly on your website.
- Advertise CPI during your contest
- (Optional) advertise and help other competitions in the CPI Competition program

Additionally...

- Ensure your competition has a finalized timeline and plan to succeed.
- If requesting sponsorship, you must have a clear purpose for the usage of the money.

Your next steps...

- Ping/message and join the dedicated forum in the CPI discord (join the server at <https://discord.gg/yrCGTUFCtP>)

If you have any questions, please reach out to ryanchou@joincpi.org.
